Hi everyone,

Please see the attached basis of estimate for CAD Cell alternative 3. As discussed during this week's meeting, the intention here is to give everyone an idea of what our basic assumptions and labor/equipment estimates are before we begin populating the spreadsheets and developing the cost estimate and refined timeline. We can discuss this following our weekly call next Wednesday and a decision can be made if we should go forward with the estimate or change the basis based on the review. Let Mark or me know if you have any questions.

Thanks, Mike
